

January 11, 2018

Dear Parishioners,

In 2013 we conducted a capital campaign, Our Parish Our Future, to raise funds to expand our parish hall and add a couple of meeting rooms. A second somewhat smaller campaign was carried out in 2016.

I am happy to report that we are on track to build this year, one year earlier than anticipated! While \$200,000 in pledges are still outstanding, construction costs are rising steadily. In addition to the OPOF funds, we have managed to build up a significant savings account. We can use this to loan ourselves money while the remaining pledges are paid off.

We are working with Architects West to prepare the schematics and construction documents. In the current timeline we are looking to put the project out to bid in late April and begin construction in June. The timeline is still preliminary. A major factor will be whether or not the bids come in where we expect.

If you have an outstanding pledge, please continue making the payments if you are able. If you have not made a pledge or gift, please know that your offering is much needed and appreciated.

I will keep you posted as we go along. Thank you for your support and prayers.

Sincerely,

Fr Mike Kwiatkowski
